Crown Battery offers a full line of railroad starting batteries for any type of locomotive, large marine applications and stationary engine starting requirements.

Our MD and UD products are considered the longest lasting, most durable railroad batteries available today. Our UDS product has virtually eliminated battery maintenance for three years, at an extremely attractive price.

Crown Battery also supplies deep cycle batteries for railcar back-up emergency lighting requirements, as well as a full line of lead-acid railway signaling batteries.

Service & Support

Crown is represented by MORE factory-authorized, independently-owned and motivated industrial battery sales & service centers in North America than anyone else. Therefore, you know your investment in Crown Batteries is properly installed, configured and set up for MORE years of "less-hassle" power for your equipment. That means MORE uptime, MORE moves, MORE support for MORE value and guaranteed satisfaction.
